### Afterlife

Ancient Egyptians believed that when they died, they would make a journey to another world where they would lead a new life. They would need all the things they had used when they were alive, so families would put those things in their graves. Egyptians paid vast amounts of money to have their bodies properly preserved. Those who were poor were buried in the sand whilst the rich were buried in a tomb.

### Farming

Egyptians grew many crops, the most important being grain used to make bread, porridge and beer. They also grew vegetables and used irrigation to their advantage.

## Famous Figures

### King Tutankhamun (1341 B.C.)

Known for his intact tomb discovered in the Valley of Kings in 1922 by Howard Carter (English archaeologist). Known now simply as 'King Tut', he took the throne aged 9 and died aged 19. His tomb was filled with precious jewellery, artefacts, gold, a mural of his journey to the afterlife and his now famous death mask and sarcophagus.

### Ramses III (1155 B.C.)

Best known for defending his country in three great wars, twice against the advancing Libyans and once against the Sea People.

### Cleopatra VII (69 B.C.)

She reigned as the queen of Egypt and inspired a Shakespeare play and several movies. She was part of the Macedonian dynasty and became romantically involved with Roman leaders Julius Caesar and Mark Anthony. In a male dominated society, her political ambition and power led to her legacy.
